**ACH Audit & Compliance Workshop**
How do your compliance procedures stack up?
Regulators, Nacha and external examiners are taking a closer look at financial institutions’ ACH procedures & risk management. If you aren’t prepared for a higher risk of fines for noncompliance, be sure to prepare for an up-to-date ACH audit. We will go over a risk assessment, regulatory compliance, guide you through an ACH audit, and also discuss best practices and the most common compliance problems. This will help you reduce your ACH risk from both receiving and originating ACH transactions.
